

Lenovo ATS Monitoring (ATSMON) Tool Privacy Notice

This privacy notice describes how Lenovo collects, uses, consults or otherwise processes data in the context of the ATSMON Tool.

In this privacy notice, "Lenovo", "we" or "us" refers to Lenovo Group Ltd and its affiliated group companies. Lenovo will process your data as a data controller.

This privacy notice only concerns the specific processing activities conducted in the context of the ATSMON Tool. To learn more about how we handle your personal information, please visit our [privacy policy](#). This policy includes among others a description of your data protection rights, including a right to object to some of the processing activities we carry out, and information on how to contact Lenovo for privacy-related matters.

Your user profile

When you create a user profile on the ATSMON Tool, we require you to provide certain personal data for the purpose of enabling you to send to Lenovo your performance and architecture data in performance of the contract. We will store this information in the Lenovo environment.

Processed data categories	Source of data	Legal basis	Recipients of data
First Name, Last Name, Email Address, Company Name, Company Address, Company Phone Number	Directly from you when installing the ATSMON Tool	Contractual obligation	Lenovo
Architecture and Performance data	Collected by ATSMON from systems you name	Contractual obligation	Lenovo

Your Architecture and Performance data

We collect architecture and performance data. Architecture data includes items such as the number and type of systems, their operating systems, and internal components such as storage drives, memory, and CPU type. Performance data includes items such as CPU and memory statistics, network throughput, and storage IOPS. Combined, architecture and performance data details the workload and utilization of the production systems in your environment. Our analysis of this data is designed to facilitate informed decisions regarding the structure of your IT environment to better fit your business strategy and operations.
